

## Introduction

Video is one of the most powerful tools on the internet. It allows people to share their thoughts, music and precious moments with small groups or the whole world.

Code 1

## YouTube

YouTube is the biggest and most well known video sharing site. You can use it to:

- ✓ **Produce Videos:** Many people produce their own videos, sometimes by talking about their life (Vlogs) or small films they've made
- ✓ **Share Videos:** Many people use YouTube to share videos of their favourite music. **Please be aware that you can only upload music or film clips if you have the copyright authorisation to do so.**

To set up a YouTube account, take a look at card A2(G) to set up a Google account, then follow QR Code 1 to set up a YouTube account. You can then upload an existing video, record your own, or search for videos that are already on YouTube.

Code 2

## Quick Video

Recently, a number of sites have opened their own channels for sharing live video (in other words, sending video to the internet as it happens). These services include Vine, Instagram and Periscope. To use Periscope, first complete card C3 and then follow QR Code 2 will take you to Periscope. **Please be careful when sharing live video that you don't share anything you shouldn't – you can't cut it out later!**
